**Leaders in**

logistics & mobility  
management solutions

## Product Features

- Input Voltage of control unit 9 to 90 Volt
- Backup of Battery 3 Hour (Approx)
- Ignition Sensing
- SOS Button (Optional)
- Interface UART & RFID
- Lock / Unlock Operation by Mobile App and RFID card
- Restriction working of RFID Card
- Hardened material of Lock

# Product Specification

- Working Current 10mA Static
- GSM Frequency
- Built-in- Battery Of control unit 300mAh  
(Li polymer) 850/900/1800/1900MHz
- External Output 1
- External Output 2
- IP -65 Casing of control unit
- Weight of Lock: 4Kg
- Dimension of Lock : 7.5\*8\*2.5 inch
- Dimension of mounting plate: 8\*9.5 inch
- Operating Voltage Of Lock- 12V

Your assets deserve your  
control

Lets Do it & Make it  
secured
